

AUM 011.E - washbasin, middle-size sink, with electric through-flow water heater - 230V, 50Hz

AUM 011 is the stainless steel, sensor-controlled, wall-mounted washbasin. The basin is equipped with a stainless steel facing, aerator and sensor. Water turns on automatically when the user's hands are placed within the sensor's range and turns off when they have been removed. Water stops running with a certain time delay after the hands have been removed from the scanning zone. The washbasin is equipped with the mechanism against excess pressure of hot and cold water. AUM 011 is manufactured from the stainless steel AISI 304. Other materials (e.g. AISI 316) possible on order. For cleaning we recommend WÜRTH detergents ? material preservation (no. 0893 121 K) and material cleaning (no. 893 121 1).
