

## ZP 01 - suspension stainless steel urinal trough

ZP 01 are stainless steel urinal troughs in various widths designed for toilettes with high level of damage risk. ZP 01 is a suspension model of the urinal trough. Standard model contains pipes for water supply and resistant anti-vandal stainless jets. COS 01 time-controlled flushing is recommended for the urinal. Other type of flushing can be delivered per order ? e.g. sensor. ZP 01 troughs are manufactured in 4 standard widths. Per order other widths can be delivered as you require. Design of the trough differs as for the outlet position on the right or on the left (in front view). When ordering, please specify the required design. The ZP 01 urinal trough has no cover as a standard ? it can be completed by cover if ordered. Stainless or plastic trap with stainless shell can be delivered to the urinal. The urinal is made of 1.5 mm thick AISI 304 metal sheet. We offer a model of 2 mm metal sheet ? BSZP 01 to heavy-duty services in Safety Section. Other materials (e.g. AISI 316) possible on order. For cleaning we recomnnd WÜRTH detergents ? material preservation (no. 0893 121 K) and material cleaning (no. 893 121 1).
