

AUL 04.L - suspension stainless steel wash trough for doctors

AUL 04.L is a series of stainless steel wash troughs designed for medical environment. In comparison to the standard AUL 04 series the medical troughs of AUL 04.L series have a front cover and are, above all, made of stainless steel with improved resistance to chlorine required in medical industry ? AISI 316L (standard AUL 04 series is made of common food stainless steel AISI 304 ? it is not resistant to chlorine). The troughs are ballotini sand-blasted ? decent mat finish. Outlet is positioned on the left or on the right (in front view on the trough) ? please specify in the order. The troughs are supplied in 4 standard lengths 1250, 1900, 2500 and 3000 mm. Per order we often produce troughs of different dimensions ? please contact us with your requirements. Possible modification to other dimensions according to customer's requirements. AUL 04.L is manufactured from the stainless AISI 316. For cleaning we recommned WÜRTH detergents ? material preservation (no. 0893 121 K) and material cleaning (no. 893 121 1).
