

VL 05 - stainless steel wall-mounted bucket sink with grid

VL 05 is a stainless bucket sink to be fixed to wall. To increase its resistance the sides are reinforced with st.steel profiles which also enable higher load of the sink. The bucket sink can be supplied with lever mixer, sensor controlled tap or with opening for the tap. Surface finish is semi-polished, side profiles are sandblasted (matt). VL 05 is manufactured from the stainless steel AISI 304. For cleaning we recommned WÜRTH detergents ? material preservation (no. 0893 121 K) and material cleaning (no. 893 121 1).
