

VZ 01 - stainless steel hanger for working aprons

VZ 01 is a stainless steel hanger for working aprons. Individual arms are screwed on the frame of the hanger. One turned-down apron is hung onto one arm and there is no need for further fixing. Drying happens subsequently in the course of the surrounding temperature as the hangers are not equipped with heating or forced air circulation. The VZ 01 hanger enables up to ten pieces of aprons to be hung. Even atypical dimensions for other numbers of aprons can be produced to order.
