

SPS 01 - shower column

SPS 01 is an integral stainless steel shower column intended for outdoor and indoor swimming pools, summer camps etc. The shower is operated by a press valve. There are two ways of anchoring the column, grappling by concreting or anchoring by means of screws and joggles. The basic version of the SPS 01 is equipped by one shower head and a press valve for water release. The column can be set up with a photocell head for contactless control and thermostatic valves to order. SPS 01 is manufactured from the stainless steel AISI 304. Other materials (e.g. AISI 316) possible on order. For cleaning we recommend WÜRTH detergents ? material preservation (no. 0893 121 K) and material cleaning (no. 893 121 1).
