

OV 03 - stainless steel sewer inlet

OV 03 is a sewer inlet intended for discharge of waste water from the campers. It is not intended for emptying of the chemical toilets. The sewer cover is equipped with discharge openings to long-term connection of the outlet hoses. A part of the sewer is also an effluvial seal that is easily to be taken off and cleaned. The sewer inlet can be combined with stainless steel columns for unpaid electricity and/or water release VS. OV 03 is manufactured from the stainless steel AISI 304. Other materials (e.g. AISI 316) possible on order. For cleaning we recommned WÜRTH detergents ? material preservation (no. 0893 121 K) and material cleaning (no. 893 121 1).
